## Summary

Artificial Intelligence and Data Science student with a strong foundation in Java programming, Machine Learning, SQL . Familiar with AI tools and modern technologies, with a keen interest in problem solving and data-driven applications. Passionate about continuously learning and applying technical skills to real world challenges.

## Education

- |             |                                                                                                                     |
|-------------|---------------------------------------------------------------------------------------------------------------------|
| 2023 – 2027 | <b>V.S.B Engineering College</b><br>B.Tech Artificial Intelligence and Data Science<br>CGPA :8.1(upto 5th semester) |
| 2023        | <b>KALVI Matriculation Higher Secondary School</b><br>HSC 12th Percentage :87%                                      |
| 2021        | <b>KALVI Matriculation Higher Secondary School</b><br>10th Percentage : All pass                                    |

## Skills

### Technical Skills

- Java
- SQL(Basics)
- Machine Learning

### Soft Skills

- Communication Skills
- Adaptability

## Certificates

- |                                              |                                                             |
|----------------------------------------------|-------------------------------------------------------------|
| • Programming in Java NPTEL  <br>Score : 98% | • Artificial primer certificate from<br>Infosys Springboard |
|----------------------------------------------|-------------------------------------------------------------|

## Projects

### 1.Brain Tumour Detection

- Contributed to an AI-based project during the internship program.
- Handled the frontend development part of the project and worked on the user interface design.

### 2. UzhavarLink – Smart Farmer-to-Customer E-Commerce Platform

- Developed UzhavarLink, a Java-based farmer-to-customer e-commerce platform that enables direct product sales, location-based product discovery, secure payments, and real-time order tracking.

## Internship

- |                        |                                                                                                                                                                      |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6/10/2025 – 10/12/2025 | <b>Virtual Intern - Infosys Springboard</b> <ul style="list-style-type: none"><li>• AI power identity verification and fraud detection for KYC Compliance.</li></ul> |
